Additional Snapshot

211411LAPR11 Team 3-1 arrived at the suspected HME Lab [redacted] (b)(1) 1.4(a)
 Team lead (TL) briefed the clearing element of the possible HME Lab indicators and the hazards associated with the possible HME Lab. While the entry team cleared the building compound of possible enemies, the

[redacted]
 (b)(1) 1.4(a)

TL proceeded to inspect the remnants of the building with a TM and the security element. The building and equipment were successfully rendered unusable for future HME production. Upon exfill from area a Soldier recognized two unusual items in a grape field approximately 25M North of compound. [redacted] (b)(1) 1.4(a)
 and discovered both items to be “snap-back” pressure plates.

TL recovered both as evidence. No further explosive hazards found.

empty jug with small hole cot into the top

empty garbage bag with obvious remnants of ANAL

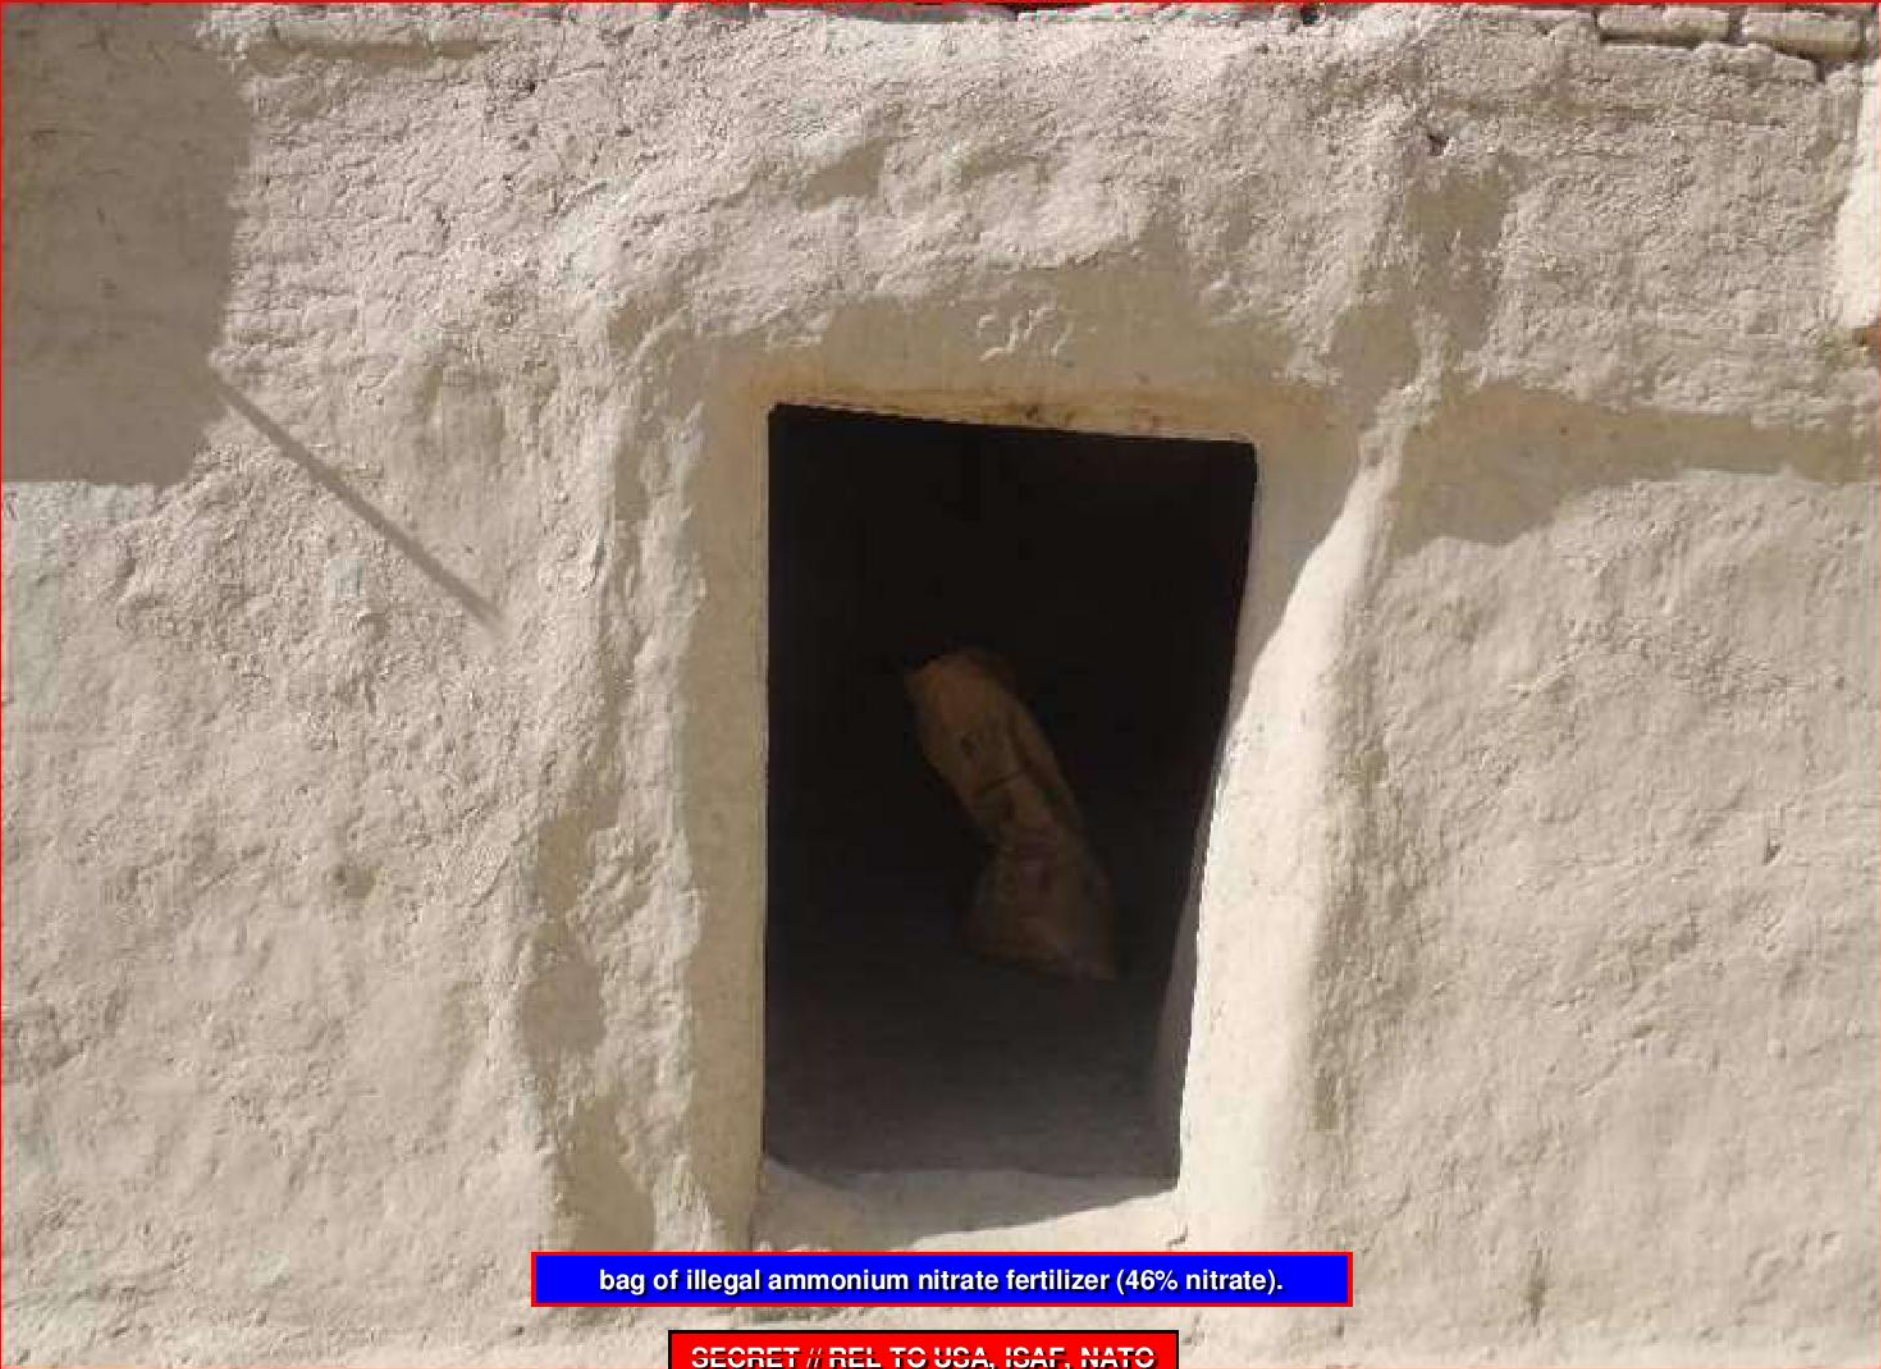

Items recovered from inside building

same wire encountered on a previous IED

"snap back" pressure plates found outside compound

bag of illegal ammonium nitrate fertilizer (46% nitrate).
